Your one-stop solution provider

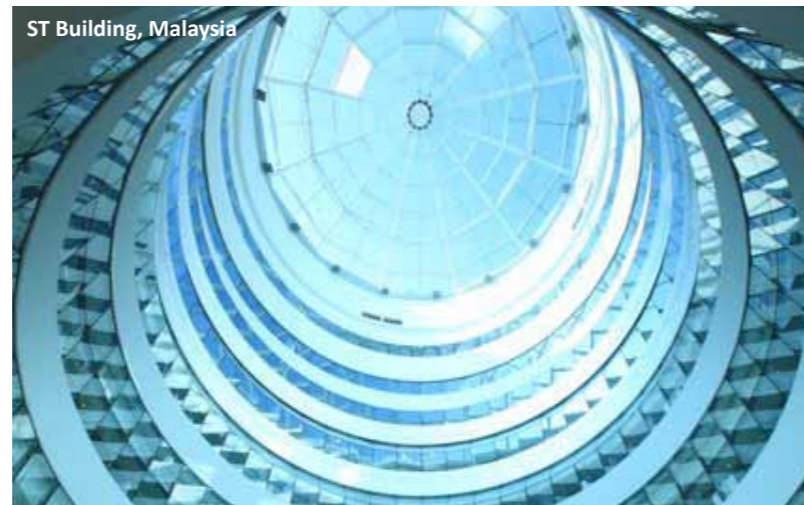

Strategic Green Alliance

- go green profitably

ST Building, Malaysia

ST Building, Malaysia

What is Strategic Green Alliance?

The Strategic Green Alliance (SGA) possesses the skills and competences to achieve the ultimate objectives of minimizing energy consumption and reducing environmental impacts of the built environment.

These skills and competences include strategic planning, design, skillfull integration of building and human related systems, intimate knowledge of the interaction between building energy systems and components, as well as the ability to use this knowledge for optimizing the processes.

SGA is based upon strengths of individual companies forming the Strategic Green Alliance. Each company - most of which have European roots - has many years of valuable experience and hence compliment each other in understanding how best to operate in and conform to local climatic requirements in the Asian Countries.

SGA has further a vast Global Network to Institutions, Government Bodies and the Industrial Sectors, through which the latest developments and technologies can be assessed.

SGA is the preferred one stop Partner for Private Companies and Government Organizations, committed to minimizing their energy consumption and carbon foot print for any new development or upgrading of existing facilities.

Alliance of green companies

Aumada Energy & Technologies (M) Sdn Bhd

www.aumadaworld.com

- System integrator
- Solution provider
- Energy saving technologies:
 - Smart hot water
 - iFacility monitoring
 - Indoor air quality
 - Power & light

CASO Resource Optimization Sdn Bhd

www.casoro.com

- Technology supplier
 - Energy efficiency
 - Water efficiency
 - Fire protection
 - Air-handling units
 - Chiller in-line cleaning
 - Active fire protection with low pressure water mist

CSConsulting & Management Sdn Bhd

www.csconsulting.com.my

- Consultants
 - Training & training planning
 - Corporate Social Responsibility
 - Environmental Management
 - Project Planning & Management
 - Organizational Development & performance management

IEN Consultants Sdn Bhd

www.iem.com.my

- Green building consultants
 - Energy efficiency
 - Building energy simulations
 - Building retrofits
 - Daylight simulations
 - Building monitoring
 - Green building certification (GBI, LEED, Green Mark & BREEAM)

Micro & Macro Approach Sdn Bhd

www.mma.com.my

- Project consultants
 - Project management
 - Project financing
 - Biomass to biogas
 - Biogas plants
 - Solar panels
 - 3m x 3m x 3mm fireproof tiles

Rockwool Malaysia Sdn Bhd

www.rockwool.com.my

- Product manufacturer
 - Energy Savings
 - Thermal Comfort
 - Fire Safe
 - Sound Insulation

Skaarup & Jespersen (M) Sdn Bhd
